	Section 2 – Policies	Revision no: 1.05	
		Approved date: 15.03.20	
2.2 Health & Safety Policy			

K Line has established a management system appropriate to our core business which is: *Providing services to the oil and gas industry by offering services from Platform Supply Vessels (PSV) and Anchor Handling Tug Supply (AHTS)*. The context of our company is defined by high level requirement related to the scale of potential health & safety incidents.

Our strategic direction is to provide safe and healthy working conditions in line with the employees' interests of prevention of work-related injury and ill health.

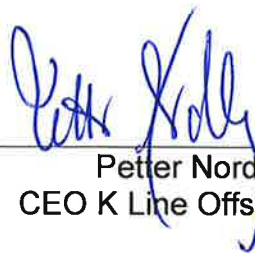

Our key health & safety performance indicators and objectives shall enable continuous development of management processes. Annual HSEQ Program shall detail relevant activities and define actions to achieve them. This also focusing reactive as well as proactive initiatives. Our goal is to achieve:

- Zero accidents
- Zero work related ill health

K Line Offshore is committed to act in accordance with ISO 45001 legal requirements, mandatory regulations, codes and standards that are applicable to our business. This also includes a commitment to eliminate hazards and reduce health and safety risks and address opportunities arising from our work activities, and to ensure continual improvement of the occupation health and safety system as part of K Line Offshore SMS.

K Line Offshore is committed to consultation and participation of employees and their representatives as defined in workers involvement procedure.

This policy is available and communicated by the top management to all employees.
